OUR STATEMENT

We focus upon the areas in which we are among the best in our industry – our core business of masonry products, reclaimed materials, and window and door systems. Our goal is to serve the Architecture & Design community at large, to promote the usage of quality natural and engineered products, and to educate our clients while creating lasting relationships.

OUR PRINCIPLES

Creating lasting values through natural raw materials and engineered products

Building strong relationships based upon mutual respect, service and education

Offering products that are socially and ethically responsible

Always looking for ways to improve the customer experience

OUR STRENGTHS

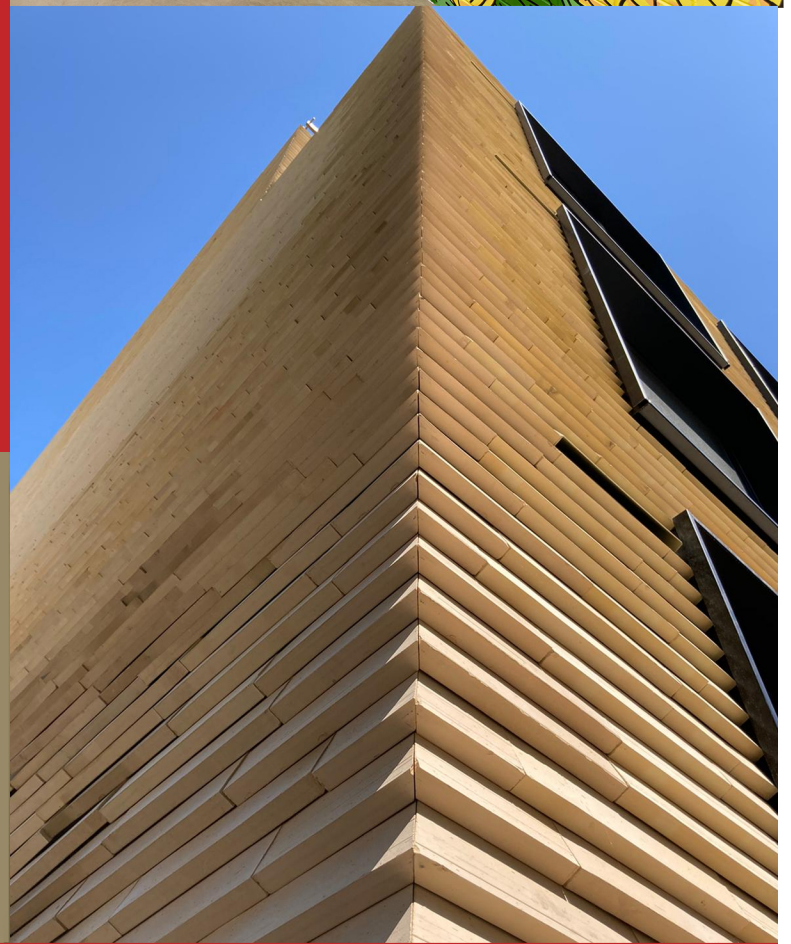

We focus on the products we know best: masonry, reclaimed materials, rain screen assemblies, windows, & doors.

We build our future upon our base experience while looking towards new and innovative products.

We place a high value on our employees and their diverse, multicultural experiences.

We are open to new ideas and developing bespoke solutions to design challenges.

We value proper training of our employees.

BUILD UPON A FOUNDATION
of heritage and quality
