

Granite Street Pavers

Product Description:

Historic granite street pavers were used for decades to line Chicago streets and are now available for your project needs. Granite street pavers are speckled with granulations and streaked with quartz for a rich lustrous finish. Granite pavers are exceptionally durable and bear the marks of old Chicago stonemasons who cut them to size.

Color Description:

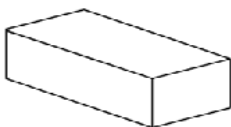

Granite Street Pavers come in three color ranges:

- *Pink to Coral*
- *Pink to Purple*
- *Black to Sliver*

Nominal Dimensions:

Full Block

5" x 5" x 8 to 12"

Please Note:

Granite Street Pavers are sold at 3 per square foot.
Granite Street Pavers are only sold as full units and cannot be cut to size.

Important Information about Reclaimed Granite Pavers

- All reclaimed products are sold "As Is"
- Bricks Inc. sorts reclaimed and salvaged products by color and quality.
- Reclaimed and salvaged products are not tested to ASTM c216 (facing brick), ASTM c902 (pedestrian traffic), or ASTM c1272 (heavy vehicular traffic)
- Bricks Inc. will sample specific batches and will assist with mock up materials to ensure the customer is satisfied with their selection.
- Bricks Inc. may stock reclaimed full depth and thin brick on any given day, but these products are sold on a first come, first serve basis. Materials will not be held without signed order & deposit.
- Bricks In. can offer contacts who will test reclaimed materials for compression, IRA, and other measures, but those cost to do such tests would be on the buyer.
- In addition to full brick, we offer thin cut products for applications where a full brick may not be necessary. Thin Brick has in recent years become a popular wall covering for restaurant interiors, commercial projects, and residences.
- When ordering reclaimed materials, please specify the color/batch to you sales rep so they can offer an estimate based on your specific needs.

Please do not hesitate to ask for guidance, and we welcome you to visit us at our showrooms!
